M+GRUPA PEOPLE INSPIRED BY PEOPLE

1. COMMENT OF THE PRESIDENT OF THE MANAGEMENT BOARD

As the second guarter of 2021 comes to an end, I can say that I am proud of the results achieved by the M+ Group. The main features of the second quarter and the first half of 2021 are revenue growth through organic growth, increasing profitability, and further business expansion. It is important to highlight the revenue growth of 13% compared to the same period last year in the context of the process of the integration of new members of the Group, which is particularly demanding in the context of the COVID-19 pandemic. The results of integration so far are evident in the growth of business and profitability and are primarily focused on operational synergies and potentials for achieving higher volumes of business with existing and new clients.

All business segments achieved business growth due to a larger number of new clients, and the Group provided all the necessary human and financial resources needed for growth.

The development of artificial intelligence and business automation solutions, as well as software for the orchestration of customer support through various channels, is the dominant focus of the IT segment, along with synergies with the contact center segment.

Despite the current favorable situation regarding the COVID-19 pandemic in all markets in which we operate, we are ready for possible adverse circumstances. We are ready to adapt to different business models in accordance with customer needs. Since the beginning of the pandemic, we have shown a high level of agility and the ability to adapt quickly to new circumstances.

By the decision of the General Assembly in June, the shareholders were paid a dividend in the amount of HRK 7.76 per share, i.e., a total of HRK 6.6 million. Given the ambitious plans for further growth and expansion of operations, the M+ Group launched a process of raising additional capital through a secondary offering of shares on the Zagreb Stock Exchange at the end of the second quarter. The issue and listing prospectus was approved by the HANFA on July 8, 2021, and was made public. A call for subscription of new shares for existing and new shareholders ensued. A total of 124,227 shares were issued and HRK 105.5 million of new capital was raised.

I would like to use this opportunity to thank all the existing and new shareholders who supported the new issue of shares.

Darko Horvat President of the Management Board

2. KEY OPERATIONAL FIGURES

Revenues: The M + Group continued to perform well in the first half of 2021, despite the risks and uncertainties caused by the COVID-19 pandemic. Operating revenues in the period ended June 30, 2021, amounted to HRK 381 million. Compared to the comparable period last year, an increase of HRK 42.8 million or 13% was achieved. The Group has successfully established new business relationships with clients from various sectors with a special focus on clients from the DACH region. Organic revenue growth was achieved through a focus on business operations, increasing service quality, and achieving higher volumes through synergies gained through the integration of new members.

(in HRK thousand)	1-6 2021	1-6 2020	Change	%
Operating income	381.195	338.256	42.839	13%
EBITDA	64.069	52.506	11.563	22%
Adjusted EBITDA ¹	69.565	56.487	13.078	23%
Net profit	25.296	20.147	5.149	26%

EBITDA: Stable demand for BPTO services in all markets and cost optimization resulted in positive effects, and EBITDA amounted to HRK 64 million. Relative to the comparable period last year, an increase of HRK 11.5 million or 22% was achieved. EBITDA growth was mostly influenced by the increase in efficiency in the Group's business, driven by the growing volume of business with existing and new clients.

Adjusted EBITDA¹: Taking into account one-off effects, adjusted EBITDA amounted to HRK 69.5 million and was 23% higher relative to the one from the same period last year.

Net profit: In the first half of 2021, the Group generated HRK 25.2 million in net profit, which is an increase of 26% compared to the same period in 2020, when it amounted to HRK 20.1 million. Profit growth was generated from the growth of business activities and increase in efficiency.

(in HRK thousand)	June 30, 2021	December 31, 2020	Change	%
Assets	951.788	909.872	41.916	5%
Capital	555.589	540.568	15.021	3%
(Net debt) / cash	(25.127)	15.144	(40.271)	

Net debt: On June 30, 2021, the Group had HRK 159.1 million on its accounts, while liabilities to financial institutions amounted to HRK 184.3 million. Net debt amounts to HRK 25.1 million, which indicates a significant ability to generate positive cash flows and a favorable position for regular servicing of credit liabilities.

Assets: On June 30, 2021, the Group's assets amounted to HRK 951.7 million. Compared to December 31, 2020, an increase of HRK 41.9 million or 5% was realized. The increase in assets was due to the operating growth of the Group's operations.

Capital: On June 30, 2021, the Group's capital amounted to HRK 555 million, accounting for 58% of the total balance sheet.

¹ Adjustments pertain to the impacts that are considered to be one-off, that is, the ones that do not have repetitive characteristics or effects on income and costs. In order to adequately review the business performance, the Management Board monitors the Adjusted EBITDA and makes strategic and operational decisions to reach set targets.

In 2021, adjustments pertain to the following categories: a) costs of financial and legal advice related to M&A transactions and other one-off effects.

3. SIGNIFICANT EVENTS FOR THE PERIOD UNTIL JUNE 30, 2021

New business relationships established with clients from different sectors with a strategic focus on the DACH region

In particular, we can highlight clients from the DACH region, such as a pan-European telecommunications company with significant business in Germany, with which the Group has started a very intensive cooperation. Another client present on the German market from the telecommunications sector is in the process of contracting larger volumes in the coming period with the possibility of expanding cooperation through additional IT services.

The Group has also signed a contract with a local government in Germany where it administers the vaccination process for certain regions.

Two clients from the e-commerce sector were also acquired, more precisely, from the fashion segment, whose propulsive growth was additionally accelerated due to the pandemic. The Group managed to significantly increase the capacity of one client in a very short time, it also initiated a cooperation in just a few days - based on an agile approach - with another extremely propulsive client from that segment.

The Group won another long-term contract for digital back office business in an official tender from a leader in the global logistics and transport market. It is one of the more complex parts of the process, and IT companies within the Group participated in the design and implementation of solutions.

It is worth mentioning that the Group has started working with one of the largest global e-learning platforms covering a wide range of processes globally with great potential for further growth during the second half of 2021 and beyond.

During the second quarter of 2021, the Group initiated a business relationship with one of the global market leaders in tobacco products, with the Group providing services to a number of different markets in the region.

We are proud to have further expanded our portfolio and service complexity with an existing technology client in the field of e-commerce delivery, where we now cover an additional two countries.

The Group signed an agreement with one of the largest regional platforms for cryptocurrency trading, with the initial volumes already significant and having an effect on the first quarter of this year.

The Group started with customer support and remote sales for one of the leaders in the real estate market in the DACH region.

Also, the Group has started a customer support project for a global writers platform where Group employees participate in the administration of background jobs.

Dividend paid out in the amount of HRK 7.76 per share

On June 18, 2021 by the decision of the General Assembly, the Group paid out a dividend in the amount of HRK 6.6 million, or HRK 7.76 per share. To pay the dividend, the company used retained earnings from previous years.

4. SIGNIFICANT EVENTS FOR THE PERIOD AFTER JUNE 30, 2021

Secondary offering of shares on the Zagreb Stock Exchange

On June 2, 2021, the Group made a decision to increase its capital by issuing shares through a secondary public offering on the Zagreb Stock Exchange. The prospectus was approved by the HANFA on July 8, 2021. The Public Call was issued on July 9, 2021. Both invited existing and new shareholders to subscribe for 122,000 to 140,000 new shares.

During the period from July 12 to July 26, 2021, through two subscription rounds in which qualified investors and small investors participated, HRK 105,592,950.00 was collected. By the decision of the Management Board dated July 28 nad with the consent of the Supervisory Board dated July 28, the paid-in capital was allocated to a total of 124,227 new shares.

Raising capital through the secondary offering of shares on the Zagreb Stock Exchange is also important for the further development of the capital market in the Republic of Croatia.

The raised capital will be used by the M+ Group for growth and acquisitions in developed markets, infrastructure and technological equipment needed for further business development, and continued strong positioning as a technological leader in the BPTO sector, capable of providing technological support to the most demanding clients in banking and finance, telecommunications, technology, e-commerce, and logistics. The capital will also be used to acquire real estate needed for the company's operations, as well as to reduce the need for borrowing from credit institutions, especially since the company already has a very low level of indebtedness and significant stocks of cash in accounts.

Clients

The M + Group has consolidated its leading position in local markets and provides services to more than 260 clients, mostly from industries that have shown high resilience to the crisis, such as the financial services, e-commerce, telecom and technology sectors. Leading clients from these industries increased their demand for BPTO services, which had the effect of increasing the profitability of the M + Group.

M + Group is focused on establishing partnerships with leading clients from various industries by providing "end to end" solutions and sees an opportunity in the acquisition of new international clients. A part of the clients have increased their willingness to outsource CRM services or their current BPTO service providers are unable to respond to their needs.

A significant part of existing clients is expanding its cooperation with the M + Group, which leads to an increase in revenue and profitability. The wide geographical coverage of BPTO service deliveries has been further increased with the "WFH" business model.

A significant number of clients have increased demand for communication segments such as webchat, digital onboarding, and omnichannel services, while we pay special attention to the development of client needs in the segment of artificial intelligence and process automation.

The development of the situation with the COVID 19 pandemic indicates that the demand for BPTO services is growing in most of our clients. Migration to digital channels and the need to provide services to customers/partners remotely will remain present for a longer period of time, and perhaps permanently.

Products and Services Contact Center Services

The M+ Group is one of the largest providers of **business process outsourcing** services (BPO) in the region. The M+ Group provides a wide range of BPO-CRM solutions, structured around a multi-channel (telephone, email, chat, and social networks) and multilingual (27 languages) customer experience platform, primarily through the contact center.

In addition to its **contact center** services, the company also offers **IT services** (CEP, CRM, the Buzzeasy contact center software, video identification (SaaS), and the development of specific software solutions), robotic process automation (RPA) and **human resource management services** (selection and identification of potential staff and temporary employment), developed as complementary services to said core activities. By merging all three business lines, the M+ Group offers a unique platform for improving the business of its clients.

The provision of contact center services is the core activity of the M+ Group and its subsidiaries (consisting, *inter alia*, of the provision of inbound and outbound services, insource and outsource models, voice and non-voice services, back-office services, and video identification services).

At the heart of our Company's business lies the provision of customer service on different channels, such as the voice channel (incoming and outgoing calls), email, ticketing systems, chat and, most importantly, digital contacts, especially on platforms such as Facebook, LinkedIn, WhatsApp, Viber, Social Listening, Twitter, etc. Our contact with customers takes place 24 hours a day, seven days a week.

Corporate clients are also provided with the service of peak capacity management (Overflow handling), where clients have their own call centers, but during peak flow, when their operators cannot answer all inquiries, they can transfer excess calls to the call center of the M+ Group and provide their customers with a prompt and professional response to inquiries. The portfolio also includes customer data verification services, the optimization of the sales and order management process, debt collection, and identity verification via video, a simple and extremely safe security measure for the verification of the identity of online users.

Contact center services are also characterized by the application of high-tech IVR solutions, chat bots, and artificial intelligence robots that ensure the effectiveness of the offered solutions at all times.

We also provide business support to our clients through business analytics services that include the collection, verification, storage, protection, and processing of data in order to provide reliable and timely operations reports.

IT services

With the integration of the Geomant Group, IT operations are gaining in importance, and the ability to provide even better services through the vertical connection of IT solutions and services as part of providing key services to our customers in the segments of contact center and HR services.

Geomant Group is a leading provider of services and solutions for customer interaction and integration of customer experience solutions. It has been developing its business for years in various markets including the United Kingdom, the United States, Hungary, and Romania. Geomant offers a unique combination of software solutions, Cloud technologies, and the possibility of system integration through long-term partnerships with leading service providers such as Avaya, Microsoft, Verint.

By acquiring a majority stake in Bulb d.o.o., the range of IT technology is further expanded, which complements business solutions in the segments of process optimization and user experience in the best possible way. The Cempresso platform is a software solution that fully automates operational processes in all interactions from contact centers to solving user requirements by using artificial intelligence (AI) and machine learning. Key features of the Cempresso platform include: service activation, service configuration, fault identification and removal, quality assurance, and data analysis.

As IT service providers, CMC, Calyx d.o.o. and CDE nove tehnologije d.o.o., as subsidiaries of the M+ Group, have over 20 years of experience in developing solutions for the largest telecommunications operators, financial institutions and fast-moving consumer goods distribution companies (FMCG). Along with their thorough knowledge of the business area, a competitive advantage of CMC, Calyx d.o.o. and CDE nove tehnologije d.o.o. are their fast and efficient adaptation and the integration of existing solutions. Their references include a large number of successfully implemented projects of high complexity, namely entirely tailored to the client's need, from consultations to the implementation, all with the participation of experienced designers and engineers.

Information technology services focus on the development and integration of advanced information and telecommunications technologies, with an emphasis on customer service solutions, customer relations management, and customer engagement management. The proprietary Buzzeasy platform is a unique customer interaction platform enabling one to transform a traditional contact center into a customer interaction center. It uses voices, e-mail, SMS, chat and social networks within a single platform, along with complete business management tools. These tools are used for the creation of advanced segmentation, as well as in every interaction with the target group.

In addition, CMC has developed the multi-channel customer relations management platform Workspace, as well as the interactive SMART AGENT knowledge sharing software, which greatly shortens the employee training and education process. Within the CMC R&D center, what stands out is an internally developed RPA (robotic process automation) solution for business process automation. By imitating human actions, the above solution masters repetitive tasks such as the filling out of different forms, retrieving data from the web, the creation of calculations etc.

The product portfolio also offers a video identification tool that complies with KYC and ALM regulations, which can be adapted to all business needs and is fully harmonized with the client's processes.
